Are you an NP or PA? ASAM also provides the additional 16 hours required for NPs and PAs to qualify for a waiver.

The ASAM Treatment of Opioid Use Disorder Course covers the highest quality, evidence-based practices for treating patients with opioid use disorder.

The ASAM Treatment of Opioid Use Disorder Course is designed for:

- Licensed physicians, nurse practitioners, and physician assistants who plan to obtain a waiver to prescribe buprenorphine in office-based treatment of opioid use disorders in Washington, DC.
- Must be licensed in Washington, DC or plan to practice in Washington, DC.

Our case-based learning format will show you how to apply this new knowledge. You will learn how to:

- Have specific knowledge to offer treatments for patients with opioid use disorder.
- Identify and assess patients who are appropriate for treatment with medications.
- Discuss the psychiatric and medical co-morbidities associated with opioid addiction.
- Apply for a waiver to prescribe buprenorphine to patients with opioid use disorders.

ASAM is an approved provider by CSAT/SAMHSA of DATA 2000 training.

ACCME ACCREDITATION STATEMENT: The American Society of Addiction Medicine (ASAM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

AMA CREDIT DESIGNATION STATEMENT: The American Society of Addiction Medicine designates this live activity for a maximum of **8 AMA PRA Category 1 Credits™**. Physicians should claim credit commensurate with the extent of their participation in the activity.

This course is being offered as part of the *Howard University Prescribers Training and Capacity Building Assistance Program*, which aims at increasing the number of providers in primary care settings to treat opioid use disorder in the District of Columbia and to establish a sustainable opioid addiction treatment provider network in DC.

Funded by the District of Columbia Department of Health
