

DISTRICT OF COLUMBIA ACADEMY OF
FAMILY PHYSICIANS

2018 Annual Meeting and Installation of Officers

November 12, 2018

Hotel Monaco

Washington DC

DC AFP Mission and Vision

- ▶ **Mission:** To improve health outcomes for our patients, families, and communities through education and advocacy on primary care issues.
- ▶ **Vision:** To be a self-sustaining robust organization leader in health advocacy and education.

DC AFP Values

- To provide responsible advocacy for and education of patients and the public in all health-related matters;
- To preserve and promote quality cost-effective health care;
- To promote the science and art of family medicine and to ensure an optimal supply of well-trained family physicians;
- To promote and maintain high standards among physicians who practice family medicine;

DC AFP Values Continued

- ▶ To preserve the right of family physicians to engage in medical and surgical procedures for which they are qualified by training and experience;
- ▶ To provide advocacy, representation and leadership for the specialty of family practice;
- ▶ To maintain and provide an organization with high standards to fulfill the above purposes and to represent the needs of its members.

DC AFP Membership*

- ▶ Active Members: 171
- ▶ Life Members: 11
- ▶ Residents: 51
- ▶ Students: 257
- ▶ Supporting (non-FP): 1

Total Membership: 491

AAFP Fellows: 35

Congratulations!

- **Elizabeth Wetterer (GU)** – AAFP Commission on Health and Public Science
- **Louisa Howard (GW)** – AAFP FMIG Regional Network Coordinator
- **LaTasha Seliby, MD** – AAFP New Physician Board Member
- **Howard University FMIG** – AAFP Program of Excellence Award
- **Georgetown University School of Medicine** - AAFP Program of Excellence Award

Congratulations!

2017-2018 Accomplishments – Andrea Anderson, MD, FAAFP

- ➔ **DCAFP issued a statement regarding the executive order.**

DISTRICT OF COLUMBIA ACADEMY OF
FAMILY PHYSICIANS

Statement from the DC Chapter of the American Academy of Family Physicians

February 1, 2017
Washington, DC

The DC Chapter of the American Academy of Family Physicians has serious concerns about the Executive Order issued by President Trump on Friday, January 27, 2017, temporarily restricting travel from seven predominantly Muslim countries and indefinitely halting the admission of refugees escaping the war in Syria.

Many of our member physicians work with refugees from the targeted countries, making us all the more aware of the harm this order has the potential to inflict on these vulnerable populations.

Further, the board of directors of the DC Chapter of the AAFP is deeply concerned about the effects of the Executive Order on our colleagues who come from the targeted countries, some of whom represent the finest and most committed doctors we know, who care for underserved communities in and around the District of Columbia.

We stand together with other health care organizations in asking the President to rescind this Executive Order.

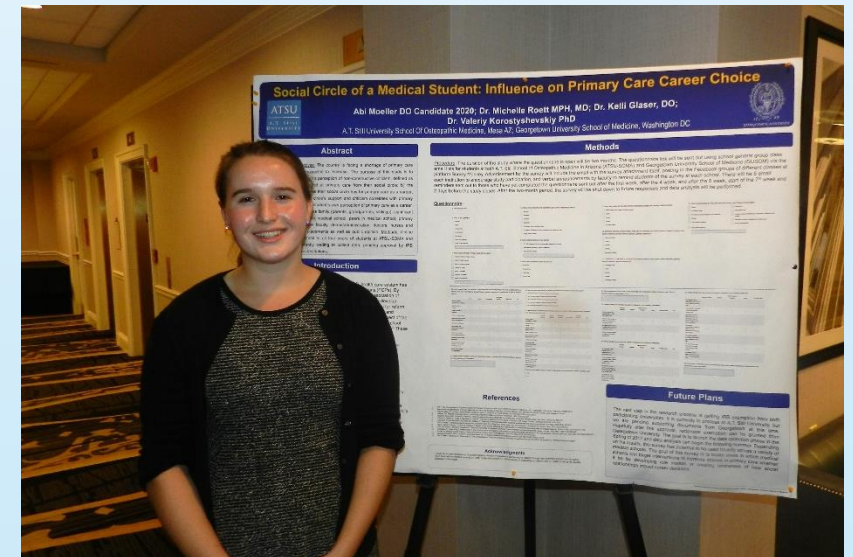

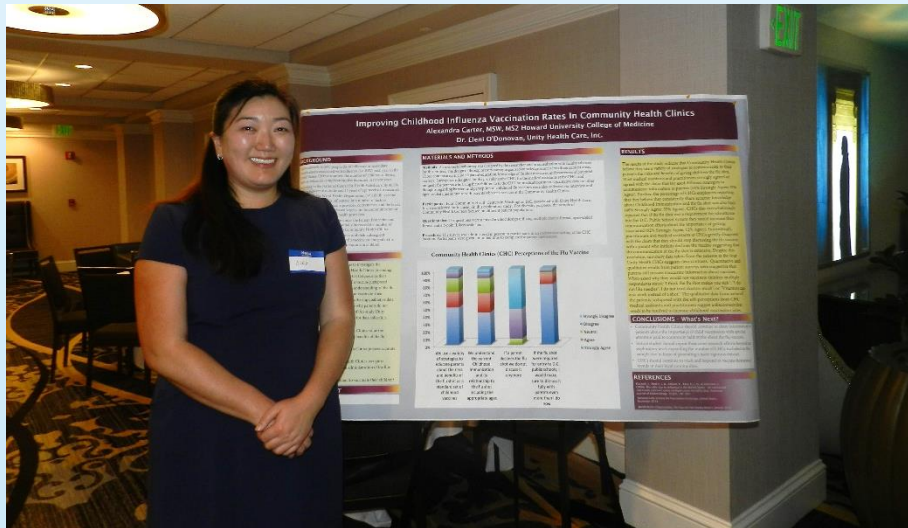

In making this call we are motivated by nothing but our moral, ethical and professional obligations to help those in need, regardless of faith or country of origin.

National Conference of Constituency Leaders

AAFP Resolution No. 2003

2018 National Conference of Constituency Leaders — Sheraton Kansas City Hotel at Crown Center

1 Maternal Mortality in the United States
2
3 Submitted by: Angeline Ti, MD, MPH, General Registrant
4 Melanie Andrews, MD, Women
5 Vivienne Rose, MD, Minority
6 LaTasha Perkins, MD, New Physician
7 Melissa See, MD, MPA, Minority
8

9 WHEREAS, The United States has the highest maternal mortality rate of any industrialized nation
10 with approximately 26.4 deaths per 100,000 live births, and
11
12 WHEREAS, the maternal mortality rate has increased by nearly 60% between 1990 and 2015, and
13
14 WHEREAS, maternal mortality occurs significantly more frequently among black women, low-
15 income women, and women in rural areas, and
16
17 WHEREAS, black mothers die at three to four times the rate of white mothers, regardless of
18 socioeconomic status and this disparity continues to widen, and
19
20 WHEREAS, racism, including discrimination by healthcare providers, contribute to poor maternal
21 health outcomes, and
22
23 WHEREAS, evidence-based interventions for decreasing perinatal morbidity and mortality exist but
24 are not widely implemented, now, therefore, be it
25

26 RESOLVED, That the American Academy of Family Physicians advocate to the Accreditation
27 Council for Graduate Medical Education (ACGME) to increase training in pregnancy care,
28 interpregnancy care, and complications of maternity care that have been shown to contribute to
29 maternal mortality, and, be it further
30

31 RESOLVED, That the American Academy of Family Physicians advocate to relevant stakeholders
32 for evidence-based measures shown to decrease maternal mortality and morbidity, such as access
33 to contraception, access to doulas and labor support, health insurance coverage for all pregnant
34 and postpartum women, and programs to address social determinants of health, and, be it further
35

36 RESOLVED, That the American Academy of Family Physicians (AAFP) develop a curriculum in
37 implicit bias and reproductive justice principles for presentation at state and national AAFP
38 Continuing Medical Education Programs to combat discrimination and bias, and, be it further
39

40 RESOLVED, That the American Academy of Family Physicians support and advocate for
41 legislative initiatives to fund research to further understand and address both the high rate and
